GOOD LUCK GARDENS PARADISE, PA.

Greetings to the
Lover of Gardens.

Through drought and heat, through cold and wet, through storm and stress, the ardent gardener never loses faith in the soil. He knows that while some seasons may not yield as bountifully as others, if he selects carefully his varieties, prepares the ground properly and then tends his garden consistently, he ALWAYS will attain pleasure and happiness far beyond his investment.

Truly as Roger Bacon said, "God Almighty was the first to plant a garden," and HE must surely, from His place on high, take an interest in man's endeavor to cultivate the beautiful and useful things that should grow upon this earth.

Just as the seasons follow each other, so must seed time precede harvest. And now we are nearing seed time, when you will be vitally concerned in choosing the flower-friends which will grace your garden in the very near future. So we bring out again our modest little catalog and hope for a share of your patronage.

This catalog, however, IS condensed. We believe that it contains a greater variety of flowers and vegetable seeds than some many times its size. In some cases we are among the very few listing varieties, and in many we are unique in handling them. If you like the odd, the unusual, the "different," you will find these well represented; and of course there are liberal assortments of standard kinds.

Why not consider planting this year, the following

- Double Gleam Hybrid Nasturtiums, page 5.
- Guinea Gold Marigold, 100% double, page 6.
- Zinnia Fantasy, A New Welcome Addition, page 10.
- Double Scarlet Gleam Nasturtium, a new bicolor in the sweet scented Nasturtiums, page 17.
- Cosmos, Klondike Orange Flare, a lovely orange colored flower that will bloom before frost, page 20.
- Calendula Chrysantha, Gold Medal Winner—All American Selections, 1934—A distinct new type, page 38.
- Paradise Sugar Rock Muskmelon, sweet as sugar, page 55.
- Imperator Carrot, flesh rich orange color, fine grained and tender, page 57.
- Glowing Ball Radish, Gold Medal Winner, 1934—All American Selection, page 57.
- Penn State Ball Head Cabbage, Award of Merit Winner, page 57.
- "Lucky Heart" Tomato, solid, heavy, mild, large heart shaped fruits, page 56.
- Lucky All-Purpose Beet, richest, darkest red of any Beet, page 48.
- "Houser" Celery, the world's most delicious, crisp, nut flavored celery, page 50.

The result of months of study and effort to make a catalog which will interest you and be of service to you, is now before you. Every offering is honestly described, and guaranteed satisfactory or your money is cheerfully refunded. A small order gets the same quick and attentive handling as a large one. Can we serve you?

Gentleman:—The day after I planted the flower seeds in May the memorable 80 mile hurricane came this way. It did great damage, the seeds were blown every which way. Of course there was nothing to do but wait and see how and where they would come up. Even the metal labels were uprooted so when the plants were ready to be transplanted it was a good deal of guess work. With the result some of them were high where the low should have been and vice versa. The flowers were marvelous in size and color. Then came the four days in August of drenching rain and the garden was beaten flat. The following week they were more beautiful than ever. My garden covered 1-8 of an acre with bird bath in the center of colorful petunias, the bowl I painted sky blue. This was the first year I had planted your seeds I consider it was a Good Luck Garden after a disastrous bad luck start.

New Asparagus SQUASH

An Introduction of Exquisite Flavor and Tenderness

Does not grow on a vine but on a compact bush. 4 or 5 hills will keep a family supplied all summer with the best squash they ever tasted. The fruits can be used any size but to obtain the real delicate "asparagus-like" flavor they should be picked when about 4 to 6 inches long, quartered (without peeling) and served like asparagus. The fruits form rapidly, and if kept picked when small will keep your family supplied until fall with these dainty, tender squashes.

Vigorous, Money Making Chicks

Instructions for Ordering

The earliest orders, of course, are assured the choice of service, so it is urgent that your orders are placed soon. State plainly the *number* and *breed* of chicks you wish, naming a second choice for substitution in case the breed of your first choice has been exhausted. This will save you unnecessary delay and correspondence on the matter and will allow you to get your brood started so much more early. Be sure to say *when* you want your shipment to arrive and we will notify you as to the exact date when they will be delivered to you. Full and complete instructions will be sent for their immediate care.

Payment on Delivery

All chicks are shipped by First Class C. O. D. Mail unless money for their payment is sent when placing the order. When chicks are to be sent by C. O. D. mail we ask you to kindly send a deposit of 1c per chick as evidence of good faith. You will of course save the unnecessary expense of C. O. D. fees if you send cash with order. We guarantee a 100 percent delivery of live, healthy chicks. (Should any be dead on arrival, simply get a statement to this effect from your P. O. Employee and on its receipt by us we will gladly refund the price paid or replace the loss, free of charge.)
